This letter and the attached are reply to your public records request dated 4.23.2019 for any email sent to or from the MPD with adl.org, with some additional narrowing. I simply searched for any emails that were sent to or from MPD employees associated with an adl.org email address. This search yielded one email. I redacted a phone number because I believe it is a personal phone number. Additionally I reacted a password to the video conference because of proprietary content.

Under the Wisconsin Public Records Laws, records custodians must carefully weigh the competing public interests involved when deciding to release any record in their possession. Custodians begin with a presumption of complete public access to such records. However, custodians must consider whether inspection of the record could result in harm to the public interest that would outweigh the benefits of such inspection. When such harm substantially outweighs the benefits of public inspection, such records or portions thereof, must remain confidential.

I have redacted personally identifiable information composed of birth dates, home addresses and private telephone numbers relating to cooperating contacts. Release of this information would facilitate identity theft crime and thus would be contrary to the well-established public interests in crime prevention and reduction (19.36(13) Wis. Stats.). Additionally, releasing this information would be contrary to the public interests in crime detection and crime fighting in that witnesses may be reluctant to report what they know to the police if they have the fear that this personal and sensitive information is subject to release upon a public records request.

I have redacted the passcode for this live stream broadcast because I believe this broadcast may contain propriety information, commercial information or reveal trade secrets that could cause harm to a person/business. The public right to know trade secrets and proprietary company information is not without limits and the harm that may be caused in release of some private proprietary information has been demonstrated to outweigh the public good. The rest of the information remains regarding the broadcast.

I have reached the above conclusions after weighing the reasons for nondisclosure against the public interest in disclosure and taking into consideration laws which either require or prohibit the release of certain records or information. For the reason(s) set forth above, I have concluded that the public interest in nondisclosure of the redacted information outweighs the public interest in disclosure. Pursuant to Sec. 19.35(4)(b) Wis. Stats., I advise you that this determination not to disclose the information described above is subject to review by Mandamus under Sec. 19.37(1) Wis. Stats., or upon application to the Wisconsin Attorney General or the Dane County District Attorney. I have

consulted with the City Attorney regarding the denial of access for a portion of this record per 3.70(6) MGO. If you have questions please reach out.

Sincerely,
